TITAN CAPITAL FORENSICS LLC — SAMPLE SOFTWARE WORKPAPER OUTPUT

Software Portal 13 of 14: `https://titan-scribeguard.com` (TITAN ScribeGuard)
Licensor: `TITAN Capital Forensics LLC` (Albuquerque, New Mexico, USA • D-U-N-S: `33-195-8002` • `audit@titancapitalforensics.com`)
Modeled Statutory Standard: 45 CFR § 164.514(b)(2) HIPAA Safe-Harbor 18-Identifier De-Identification & OIG Billing Audit
Execution Kernel: Client-Side Browser RAM • 0-ULP Fixed-Point BigInt • Z3 SMT-LIB2 Verified

---

1. Deterministic Software Integrity Attestation

- **Mathematical Kernel:** Pure 64-bit integer fixed-point micro-units (`0-ULP` zero floating-point rounding drift)
- **Cryptographic Workpaper Seal:** RFC 8785 Canonical JSON + Ed25519 / SHA-256 Integrity Digest
- **Zero-Egress Privacy:** Computed locally in client browser memory with zero raw file upload to external servers
- **Commercial Software Classification:** `Enterprise Compliance Software (SaaS • MCC 5734 / 7372)`

2. Software Simulation Scope & Safe-Harbor Notice

This sample workpaper illustrates the structured audit documentation generated locally by `https://titan-scribeguard.com`. All outputs are self-service computational software workpapers licensed by TITAN Capital Forensics LLC for internal corporate compliance analysis or review by the licensee’s independent CPA, legal, or engineering advisors. TITAN Capital Forensics LLC does not provide legal representation, CPA tax-return signing, or third-party fund custody.
